

Monday Morning

RMRC, Bhubaneswar (Laxmi Narayan Memorial Library) Weekly Current Awareness Service

VOL 3#41

22nd October

2018

"There is nothing in a caterpillar that tells you it's going to be a butterfly."

-Buckminster Fuller

About Monday Morning

Monday morning is a weekly E- CAS (Electronic Current Awareness Service) of RMRC Library, Bhubaneswar which carries one Biomedical & health science news item and some useful current medical research links so that the scientists can access the articles. This E- Bulletin starts its journey from 21st Nov. 2016. In this maiden attempt we cordially invite your inputs and suggestions to improve in future.

Dr. Banamber Sahoo, Lib & Inf. Officer
Sonali Sribastab & Shaktidhar Barik (Lib. Trainee)

1. Strep Throat: Symptoms and Treatment

Strep throat (also known as pharyngitis or streptococcal pharyngitis) is an infection caused by Streptococcus pyogenes, or Group A Streptococcus (GAS). Streptococcal pharyngitis is highly contagious and can spread by nasal secretions and saliva. Strep throat most often afflicts children younger than 16, and is most common in the United States in the winter and spring. For more details click on the below link
