

Monday Morning

RMRC, Bhubaneswar (Laxmi Narayan Memorial Library) Weekly Current Awareness Service

VOL 4#06

11th February

2019

“It is a miracle that curiosity survives formal education.”

- *Albert Einstein*

About Monday Morning

Monday morning is a weekly E- CAS (Electronic Current Awareness Service) of RMRC Library, Bhubaneswar which carries one Biomedical & health science news item and some useful current medical research links so that the scientists can access the articles. This E- Bulletin starts its journey from 21st Nov. 2016. In this maiden attempt we cordially invite your inputs and suggestions to improve in future.

Dr. Banamber Sahoo, Lib & Inf. Officer
Sonali Sribastab& Shaktidhar Barik (Lib. Trainee)

Patient Tested for Ebola in Pennsylvania.

A patient in Pennsylvania is being tested for a possible Ebola virus infection, according to news reports.

1. A hidden route for fatty acids can make cancers resistant to therapy

Tumors grow and proliferate, and to do so cancer cells require the duplication of building block molecules. This includes nucleotides to make DNA, but also fatty acids to make the cell boundaries i.e. the cell membrane. For more details, click on the below link

4. Why some children may get strep throat more often than others?

Children with recurrent strep infections had smaller immune structures crucial to the development of antibodies in their tonsils than kids who hadn't had repeated infections, researchers found. For more details, click on the below link

<https://www.sciencenews.org/article/recurrent-strep-throat-tonsils-immune-system?tgt=nr>

5. Winter Diet: Follow These 5 Diet Tips To Stay Warm Naturally During Winters

During winters, it is not just about how well you cover yourself with layers of woolen clothes, but also what you consume that can help you stay warm. There are certain foods, spices and drinks that you can include in your diet, which can generate heat in the body naturally. For more details, click on the below link
