"An investment in knowledge pays the best interest."

Benjamin Franklin

About Monday Morning

Monday morning is a weekly E- CAS (Electronic Current Awareness Service) of RMRC Library, Bhubaneswar which carries one Biomedical & health science news item and some useful current medical research links so that the scientists can access the articles. This E- Bulletin starts its journey from 21st Nov. 2016. In this maiden attempt we cordially invite your inputs and suggestions to improve in future.

Dr. Banamber Sahoo, Lib & Inf. Officer
Adyasa Bhoi & Suryajit Samal (Lib. Trainee)

Teen's Junk Food Diet Caused Him to Go Blind, Doctors Say

A teen who ate nothing but fries, chips and other junk food for years slowly went blind.

3. Men's Diet: Consuming Over 10 Portions Of Tomatoes Per Week Linked With Lower Risk Of Prostate Cancer.

The humble savory fruit tomato that is used in numerous dishes and even drinks is a treasure trove of beneficial nutrients. One of the most important one is the antioxidant lycopene, which is credited with a number of its major health benefits to the human body, including reduction of risk of heart diseases and according to some research, certain types of cancers as well. For more details, click on the below link

5. Survival skills ensure that cancer spreads

How cancer cells migrate to a secondary site and become established there is not fully understood. An analysis of mouse and human cancer cells could help settle the debate about the role of the protein E-cadherin in this process. For more details, click on the below link.
