"It is the mark of an educated mind to be able to entertain a thought without accepting it"

– Aristotle

About Monday Morning

Monday morning is a weekly E- CAS (Electronic Current Awareness Service) of RMRC Library, Bhubaneswar which carries one Biomedical & health science news item and some useful current medical research links so that the scientists can access the articles. This E- Bulletin starts its journey from 21st Nov. 2016. In this maiden attempt we cordially invite your inputs and suggestions to improve in future.

Dr. Banamber Sahoo, Lib & Inf. Officer
Adyasa Bhoi & Suryajit Samal (Lib. Trainee)

CRISPR treatment inserted directly into the body for first time

A person with a genetic condition that causes blindness has become the first to receive a CRISPR–Cas9 gene therapy administered directly into their body

2. Coronavirus latest: children are as susceptible as adults, study suggests

Children are just as likely to get infected with the new coronavirus as adults, finds one of the most detailed studies yet published on the spread of the virus, known as SARS-CoV-2. The analysis — based on data from Shenzhen, China — provides a partial answer to one of the most pressing questions surrounding the outbreak: the role of children. For more details, click on the below link.

3. This one thing is easier to find than a hand sanitizer and protects you from catching coronavirus

The panic around the coronavirus outbreak is spreading like wildfire. With over 28 confirmed cases confirmed in India and many more undergoing screening, pharmacies are running out of hand sanitizers, masks and medicines to stop the spread of coronavirus infections. For more details, click on the below link.
